## WELCOME TO OUR 2021 STUDENTS

Education is the most powerful weapon to change the world...

### Advice for new students

"At university, you are in charge - you decide to study or relax. You fuel your future. Yes, you have the support of academic staff, friends and family, but you make the decisions.

"Remember, you don't get what you wish for, but what you work for. Do something now your future self will thank you for."
